AI Agents

Your team's
all-weather allies

Finance teams spend up to 50% of their time on manual data entry and reconciliation.

Automate financial transactions, forecasting, and reporting, improving accuracy by 90% and reducing manual tasks by up to 80%.

Finance AI Agent

Manual invoice processing costs businesses \$15 - \$40 per invoice and is prone to errors.

Automate the invoice process, reducing manual effort by 70% and increasing processing speed by 50%, thus cutting down the overall costs by 30% using Generative AI

AP Invoice AI Agent

AI Agents

Augmenting & Supporting Your Workforce

This AI Agent natively monitors a source (such as Inbox) and understands incoming queries and attachments. It uses smart rules and logic to initiate proper action, such as triggering AI Automation processes, drafting auto-responses, and routing information to the right users.

Automated Response & Routing AI Agent

AI Agent Help Desk

This AI Agent understands L1/L2 incoming support tickets and utilizes AI Automation to process these tickets in real time. Reduce your IT tickets by up to 90% and support software development and QA Management Easily

Supervity is the pioneer in creating and managing "AI Agents" at scale, with a vision to revolutionize how businesses streamline operations. The proprietary Supervity AI Agent Platform leverages a suite of technologies including AI RPA, LLMs, and integration capabilities, that allow for the creation of robust and custom AI Agents to solve today's business challenges. AI Agents work on top of a business' existing infrastructure and current "as-is" processes, which means that AI Agents can be implemented immediately.

Today, Supervity's AI Agent technology is supporting rapid business efficiency including customer engagement, employee support, and performing front, middle, and back-office operations. Its platform emulates human-like actions by comprehending unstructured data/documents, interacting with enterprise applications, and making intelligent decisions.

Founded in 2017, Headquartered in Reston, Virginia, USA
